
JOHN Z. NITTOLO

Mr Capone,

It is with much enthusiasm that I submit my name for the position of Supervisor of Student Activities or any other administrative positions with the Montague School District. As a passionate, highly committed individual with proven leadership experience, I am confident that my skill set and interpersonal strengths are congruent with your needs.

I believe wholeheartedly that I can provide the leadership necessary to expand your current curricular and instructional excellence, while also guiding the district into the future. The students deserve the finest education possible within a fiscally responsible budget and I believe that the ingredients necessary for continued success are contained in the Montague School district.

Currently, as Superintendent/Director of Personnel and Staff Development in the Green Township School District, I have been given the opportunity to create a constantly improving, reflective, positive, and responsive learning climate in a unique kdg.-8th grade school district that belongs to a successful Send-Receive relationship with the Newton School District and Andover School District. I am proud that my team and I have redefined professional development, literacy instruction, authentic math, the arts for all, the intelligent infusion of technology into all aspects of curriculum and afforded our professionals and students the opportunity to become their best version – we have totally transformed this learning environment. We have created a student-centered, proactive, motivated culture with a passion for excellence.

As a visible and highly involved leader, I am familiar with the challenges in maintaining high expectations while also establishing a positive and people-friendly environment. I have learned that true leadership is a collaborative approach. There is little doubt that educators are craving active leadership; I believe that I will bring out the best in all who surround me and will help you to facilitate growth and transformation in an already outstanding school district.

I am excited at the opportunity to apply for this and any other administrative position. Please contact me if you believe my skills and experience meet your requirements.

Sincerely,

John Z. Nittolo
